Imperial College London

BSc (Hons) Biochemistry with French for Science // 2011 - 2015

Completed Bachelor degree with Upper Second Class Honours (2:1). I spent my third year completing a research project at the University of Strasbourg, France. Alongside Biochemistry, I also studied French language and Scientific and Technical Translation.

EXPERIENCE

Deloitte, Perth

Senior Analyst // Jan 2023 - present

Experienced Analyst // Jan 2022 - Jan 2023

- I currently work as a Senior Analyst in Risk Advisory at Deloitte.
- I have gained valuable expertise in using SQL to build complex payroll models.
- I have been acting in a Senior Analyst role on my most recent project since August 2022, and my main achievements include:
 - Taking responsibility for managing three other analysts by delegating work to them, overseeing and reviewing their work, and guiding them throughout the project.
 - Becoming the go-to model expert amongst the team, using my acquired knowledge to build, debug and fix the models, while also training my team members and being the main source of information for code questions and suggestions for improvements.
 - Developing a close relationship with the client and being regarded as the main liaison between client and data team.

EXPERIENCE

Axiom Health, UK

Freelance Project Manager // Oct 2018 - present

I work as a remote freelancer for Axiom, managing various projects. My most recent project is the development of an online feedback portal for doctors to answer surveys about abstracts at global conferences. Built from scratch using Flask, Bootstrap and PostgreSQL. To be used at a number of future conferences and update design and functionality as required.

Epiq Global, Perth

Court Transcriber // Oct 2018 - Jan 2022

Worked part-time during my studies as a District Court transcriber, typing criminal and civil hearings, police interviews and legal inquiries. Excellent typing accuracy and speed.

Cello Health Communications, UK

Freelance Project Manager // May 2018 - Sep 2018

Worked as an in-office freelancer. Projects included:

- Taking charge of running a successful satellite symposium at a medical congress in Madrid. Managed all aspects of project from start to finish, including scientific content development, event management and liaison with client and speakers.
- Managed the day-to-day running of a global online advisor network. Involved liaison with developers, crisis management, client liaison and managing junior team members.

Cube Public Relations, Sydney

Senior Account Executive // July 2017 - April 2018

Worked across several client campaigns and developed sound working relationships with health journalists and pharmaceutical clients. Managed small projects, including a medical media outreach, a journalist masterclass and a comprehensive literature review.

Cello Health Communications, UK

Project Executive // June 2015 - July 2017

Managed several projects from start to finish, including development of an online advisor network for doctors, delivery of a satellite symposium at a congress in Amsterdam, and taking charge of a large group of temps for a stakeholder mapping project.
